Morse Code - KL7BB

Editors Comments-

I am getting a few articles of interest from Club members and they are greatly appreciated. Send me your Ham Radio or vacation stories and we'll spread the word. They may be of interest to all. Tnx

Harvey - NL7DK 333-4693

AARC General Meeting

February 2, 1990

Ed Bosco, president, brought the meeting to order at 7:15 p.m. and proceeded to rearrange the seating order of the meeting.

Lil Marvin, NL7DL, announced that she and Rick Marvin will begin teaching novice and technician license classes on March 20. Classes are Tues. and Thurs. nights from 7-9 p.m. Fees are \$35.00.

Ed reminded everyone that the meeting room at the Spenard Rec Center is reserved from 6:30 p.m. to 9:30 p.m. and if you get there early be patient until the room is open.

Life membership for Susan Woods, NL7NN, was voted on and approved.

Guest speaker Curt Law, AL7LQ, from Kodiak gave a talk on amateur radio microwave. Curt brought his station to the meeting so everyone was able to see how to build and operate a microwave station. He gave information on how to set up a station and helpful tips on where to find parts inexpensively. It was hard to believe that his professional looking dish was actually made from a cooking wok.

Meeting was adjourned at 8:55 p.m. Submitted by Nancy Brophy, NL7PN, secretary.

AARC Board Meeting

February 14, 1990

Diane Hammer, activities director, brought the meeting to order at 7:05 p.m.

Mark Hadley, KL7HF, reported that he has contacted Mel Bowns, Alaska frequency coordinator, in regard to reimbursing him for expenses.

Fred Wegner, KL7HFM, treasurer, reported that the club's treasury is solvent. He has purchased Anchorage Municipal bonds as a long term investment.

Lance Dunbar, AL7BK, was able to purchase a printer for the computer for \$207.36.

At this point Eric Stewart, vice president, arrived and he presided over the meeting.

The board designated Fred Toliver to be the member in charge of games and Fred Wegner to be the alternate member in charge of games as required by the state of Alaska.

Doug Dickinson, KL7IKX, after braving the high snowdrifts at the repeater site has the 146.94 repeater back to 110 watts. He also requested \$618 of the budget to be allocated for a new modem for the packet bulletin board. This resulted in the waving of the black hat and discussion followed. After Fred Wegner explained the needs for the more expensive modem, a motion was passed to purchase it for \$618.

The board authorized funds to reimburse expenses incurred in 1989 for taping of the Westlink.

Keith Fenrich, N5FYW, was nominated by the board to fill the vacancy that was created by George Sherrock's resignation.

Bill Belzarini, KL7BB, was authorized to use the club's call sign for the CQ Worldwide contest on March 24 and 25 at Roger Hansen's, KL7HFQ, home qth, all club members are invited to come over and join in the fun.

Mark Hadley reported that the committee working on guidelines for the club call sign requests has met and will be submitting a report at the March board meeting.

The board approved a \$300 request by Lance Dunbar to purchase a new monitor for the computer used by membership committee.

The board has nominated Harley Steward as the ARRL section manager for the state of Alaska.

Bill Capers, AL7BB, reported on the latest in regard to the municipal tower ordinance. This matter is once again unsettled, be vigilant.

Harvey Rookus, NL7DK, asked the board for \$800 to purchase the Alaska Blood Bank a platelet rotator. The board approved of this since it is a continuation of precedent in our relationship with the Blood Bank. The matter will be brought to the general membership at the March meeting for approval.

Mark Hadley was granted permission to do an equipment swap of club property for more suitable equipment which will be used to bring ATV audio onto 146.43.

Meeting was adjourned at 9 p.m. Submitted by Nancy Brophy, NL7PN, secretary.

HAM Radio School

Novice and Technician Class

HAM Radio School

Sponsored By

ANCHORAGE AMATEUR RADIO
CLUB

Beginning: March 20, 1990

Instructors: Lil & Rick Marvin

NL7DL & KL7YF

REGISTER BY CALLING: 277-6741

FEE \$35

REQUIRED STUDENT MATERIALS:

- Code Master Tapes CM-1
- AMECO "Novice Class" Manual
Catalog #27-01 Copywrite 1990
- Radio Shack "Technician Class"
FCC License Preparation Manual
Catalog # 62-2403A
- AMECO "Amateur Radio Theory Course"

The books and code tapes can be purchased at
the Electronic Supply Center (Radio Shack) in
Mountain View. Phone 274-0603

Be aware that the Morse code requirement is the biggest
stumbling block for most aspiring hams! Begin practice now.

Classes to be held at 1030 Denali (corner of 11th and Denali in Marvin's
garage.) Tuesday/Thursday evenings 7:00 - 9:00 PM Classes will run 10 weeks.

Photo by Dave Evans

Dave, AL7JZ, and Kim, NL7PP

David Evans, AL7JZ, is a geophysicist living in Anchorage, Alaska. In the late sixties, as a geodesist working for the Army, he was assigned to a satellite tracking station team of seven scientists who would spend six months on Pitcairn Island in the South Pacific. The expedition to Pitcairn included a full cargo load of electronic equipment, food, fuel, generators, and living quarters, all stuffed into an Air Force C-141 and flown to American Samoa. From there the team loaded everything onto a U.S. Army ship for a ten day trip to Pitcairn.

Upon arrival, the ship was welcomed by the islanders, and each team member was taken into individual homes and well cared for until their camp was set up and operating. Of course, the Pitcairners helped by building a road to the highest point on the island, preparing the site, and hauling the equipment. After the station was fully operational, four team members returned to the states, leaving three for the duration. The ship remained for the entire period, steaming back and forth to Samoa with cargo and mail. Many Pitcairners enjoyed a free ride to Samoa and back as guests of a very friendly captain.

The Islanders kept their homes open to all visitors and provided many home cooked meals and evenings of conversation. Contact back home for Dave was via Ham Radio. During his time on Pitcairn, Dave met and married one of the Island girls, Melva. He brought her back to the States via the Army ship (the captain had the first mate give up his quarters for the newlyweds).

For the next twenty years, Dave and Melva lived in the Azores, California, Alaska, Tennessee, Colorado, back to Alaska, New Mexico, and back to Alaska. They had four children during these years. The family kept in contact with friends and relatives on Pitcairn via Ham Radio. Tom Christian, VR6TC, was the only ham on Pitcairn for many years. Dave was not a ham most of this time and had to rely on friends (mostly Tom's friends) to make contacts. Dave wanted his license for many years, but the code requirement stood in the way. He thought it would be too hard to even try. Finally, he decided to go for it. He took a ham class and studied the code faithfully for three months and earned his Advanced ticket directly—"Not so hard after all" Now Dave keeps regular weekly schedules with Pitcairn which now has several hams, including Tom, VR6TC; his wife Meralda, VR6MW; and several others.

Dave's second daughter Kim recently spent six months on Pitcairn meeting all her relatives she had never known before. She kept in touch with home via ham radio. After her return she included ham radio in with her university classes and now holds her General class license NL7PP.

We once again wish to Thank Dave for the fine program on Pitcairn Island which he recently gave. Don't forget to try for Pitcairn during their bicentennial year. See February Newsletter.

From Adventist Amateur Radio Assoc. with slight Revs. Ed.

SOMETIMES GREAT IDEAS COME FROM LEFT FIELD INSPIRATION, SUCH IS THE CASE WITH THE WINDOM ANTENNA. THE WINDOM ANTENNA DESCRIBED BELOW IS FED WITH 50 OHM COAX AND COVERS 80, 40, 20 AND 10 METERS WITH NO TRAPS! ADDITIONALLY THE WINDOM ANTENNA RARELY REQUIRES AN ANTENNA TUNER AS THE AVERAGE S.W.R. IS ALMOST ALWAYS BELOW 2:1

BASIC THEORY OF THE WINDOM

TO START OFF OUR ANTENNA PROJECT LET'S GAIN A BASIC UNDERSTANDING OF HOW THIS ANTENNA IS DESIGNED AND THE THEORY BEHIND THIS DESIGN.

LETS GET TO IT

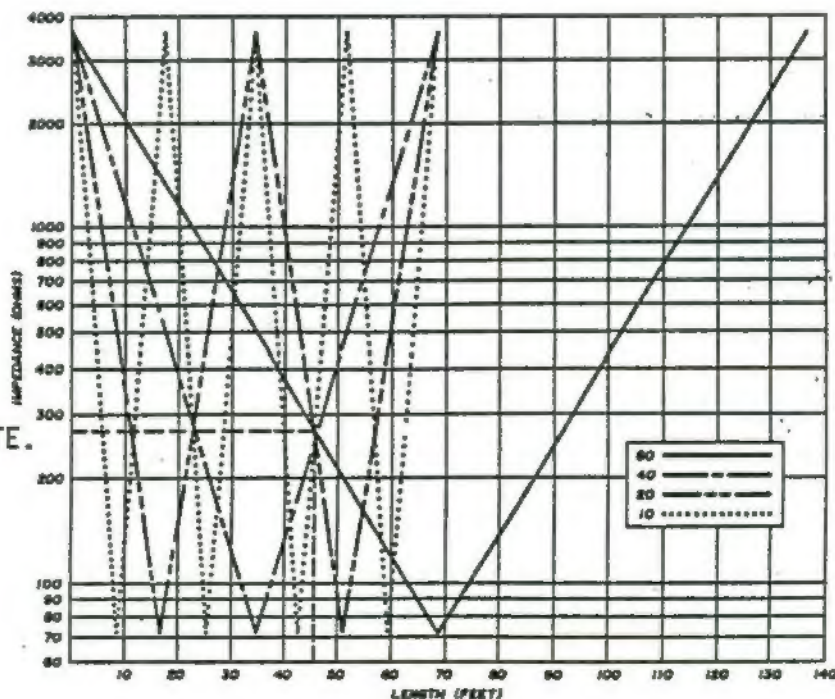

TO START WITH LETS CALCULATE THE LENGTH REQUIRED FOR OUR ANTENNA. THE HIGHEST FREQUENCY BAND WILL BE THE MOST SENSITIVE TO ANTENNA LENGTH THEREFORE WE WILL CALCULATE OUR ANTENNA'S LENGTH ON A HALF WAVE MULTIPLE OF TEN METERS, SEE BELOW.

$$\text{LENGTH IN FEET} = \frac{492 (N - 0.05)}{28.9 \text{ MHZ}}$$

WHERE (N) IS THE NUMBER OF HALF WAVES.

USING THE ABOVE FORMULA WE COME UP WITH A LENGTH OF 135.342 FEET WITH (N) BEING 8 HALF WAVELENGTH'S. LET'S ROUND OFF THIS FIGURE TO 136 FEET EVEN. THE CHART BELOW IS AN IMPEDANCE GRAPH MEASURED WITH THE FEEDPOINT 45 FEET INTO ONE SIDE OF THE ANTENNA, LEAVING 91 FEET FOR THE OTHER LEG. NOTICE HOW THE IMPEDANCE PLOTS CROSS AT 270 OHMS FOR ALL BANDS. THIS IS HOW THE WINDOM FUNCTIONS. IF WE ARE FEEDING THIS ANTENNA WITH 50 OHM COAX WE WILL NEED A BALUN. SINCE 270 OHMS DIVIDED BY A 50 OHM FEEDLINE IS 5.4, WE NEED A 5:1 BALUN, THIS WILL DO NICELY!

270 ohms, NOTE.

THE BALUN

SINCE A 5:1 BALUN IS NOT WHAT YOU WOULD CALL AN OFF THE SHELF ITEM, WE WILL HAVE TO MAKE OUR OWN. YOU WILL NEED THE FOLLOWING ITEMS.

1. ABOUT FIVE FEET OF NUMBER 12 ENAMELED COPPER WIRE.
2. A FERRITE ROD MEASURING 1/2 X 4 INCHES, WITH A (U) OF (125). THIS ROD IS OBTAINABLE FROM: RADIO KIT
15 LONDON BERRY ROAD, NUMBER 8
LONDON BERRY, NH.
603-437-2722

LETS WIND'ER UP

THE BALUN IS BIFILAR WOUND, BELOW IS A SCHEMATIC OF THE BALUN, AND A PICTORIAL DIAGRAM. THIS BALUN COVER 3-30 MHZ. AND SHOULD EASILY HANDLE 1 KILOWATT OF R.F.

STEP 1. COVER THE FERRITE CORE WITH ONE LAYER OF HEAT SHRINK TUBING, THIS IS TO PREVENT THE WINDINGS FROM SHORTING TO THE CORE.

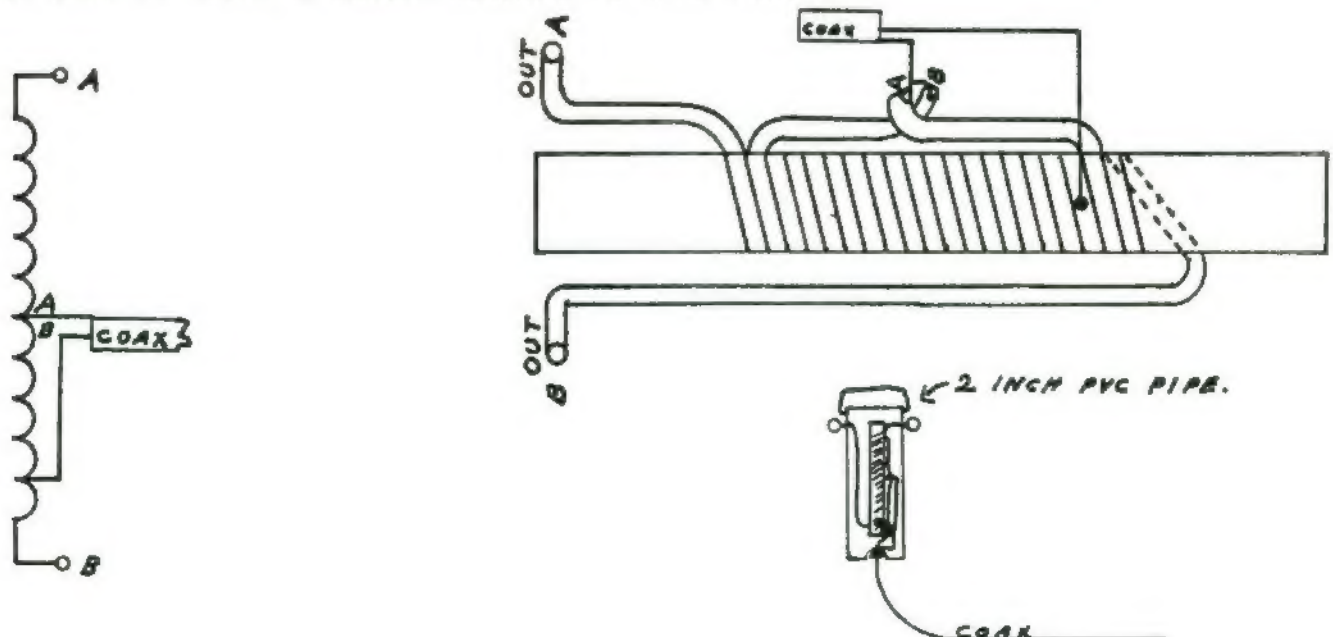

STEP 2. CUT YOUR WIRE IN HALF AND LABEL BOTH ENDS OF EACH WIRE AS (A) AND (B) RESPECTIVELY.

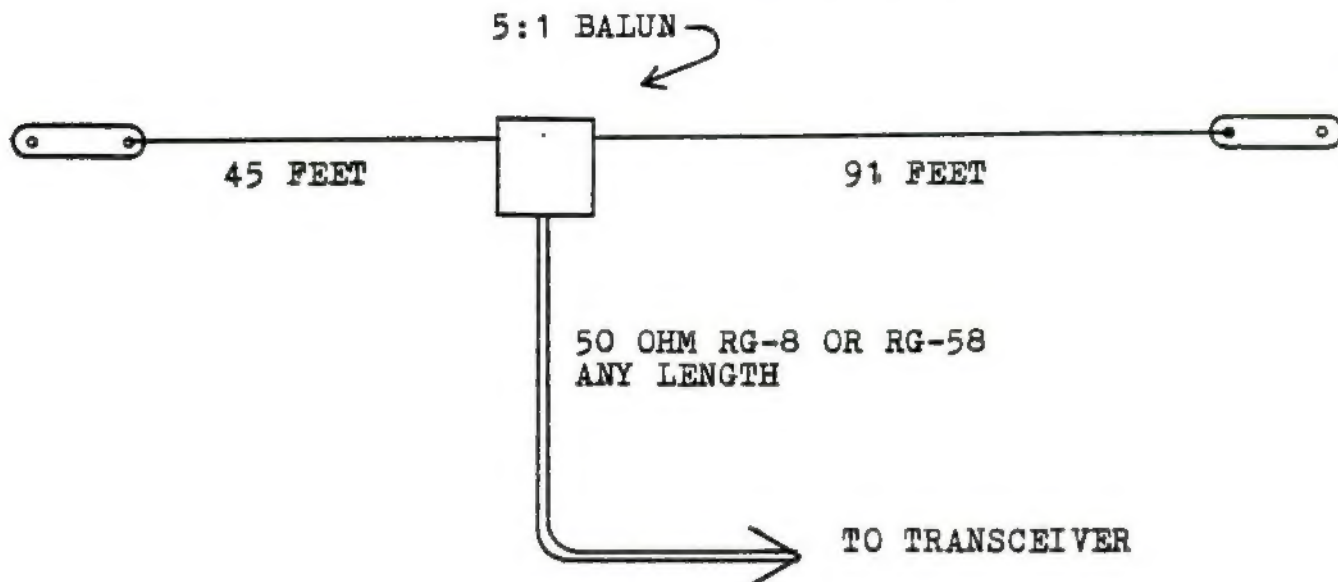

STEP 3. MAKE A MARK ON ONE END OF THE CORE USING A PERMANENT MARKER OR SIMILAR.

STEP 4. STARTING FROM THE MARK YOU JUST MADE IN STEP 3, WRAP BOTH WIRES TOGETHER UNTIL YOU HAVE TEN TURNS OF WIRE A AND B. TRY TO CENTER THESE WINDINGS IN THE MIDDLE OF THE CORE.

STEP 5. HOLDING THE CORE WITH THE INK MARK UP, TAKE THE WIRE MARKED B FROM THE TOP OF THE CORE AND SOLDER TO THE WIRE MARKED A AT THE BOTTOM OF THE CORE. THIS IS WHERE THE SHIELD OF YOUR COAX WILL CONNECT. THE WIRES SHOULD BE SOLDERED TOGETHER AT THE CENTER OF THE CORE.

STEP 6. FROM WHERE WIRE B EXITS THE CORE AT THE BOTTOM OF THE CORE, GO UP ONE TURN AND PUT A TAP AT THIS SPOT, THIS WILL CONNECT TO THE CENTER CONDUCTOR OF YOUR COAX. THE TWO FREE ENDS CONNECT TO THE ANTENNA ITSELF. YOU WILL NEED TO PROTECT THE BALUN. I SUGGEST YOU PUT IT INTO A SMALL LENGTH OF PVC PIPE.

HF FUN HF FUN

THE AARC and the 34th ANNUAL CQ Magazine
WORLDWIDE WPX CONTEST

Phone SSB Contest

March 24-25, 1990 GMT!

Starts 0000 GMT Saturday

Ends 2400 GMT Sunday

Just Rambling on-

Have you wondered what takes place at a Ham supported event? The following hams were all lined up to go out for Iditaski; AL7FI-Rich, Little Su; KL7IZZ-Harley, Big Su; KL7WM-Daniel, Kroto Slough; WL7BOR-Ed, Rabbit Lake; AL7KE-Walt, Skwentna Xng; NL7DK-Harvey, Skwentna; KL7VC-Fred, Riversong; WB7SFO-Ken, Yentna; AL7FJ-Shari, NL7PN-Nancy, HQs. AL7FI and WL7BOR tried the day before to get to their checkpoints, but wind and temperature blocked them. KL7IZZ and NL7DK drove to the start at Knik Lake with KL7HO-Arlene as designated driver for KL7IZZ to depart for his checkpoint at 0900. When we arrived the racers were having a meeting regarding the race. They discussed the weather conditions (10 below with 15 MPH wind) and what they could find on the trail. Skwentna had 42 below the nite before. About 1000+ they cancelled the race. Then they decided to make it a shortened race, 86 miles to Big Su and return. So in the meantime AL7FI had gotten out to Little Su and WL7BOR had gotten to or close to Rabbit Lake. With Rabbit Lake out, WL7BOR ended up cruising the Trail and checking on Skiers and their problems. KL7IZZ did not leave for Big Su until about 1500+ with the Checkers and supplies (two trips). All Hams had to be notified about the changes in plans etc. It makes for a lot of shuffling when this happens. KL7VL-Sharon has been doing the job of gettings Hams for this event for the past four years that I know of. Thanks need to be given to all who worked or tried to work this event. As it turned out Skwentna had about 3 below and no wind, but you have to call em as you see them. So, if you ever want to work a Ham supported event, plan on there being many changes or possibility of changes at any time. Mother Nature can certainly change things. If you haven't done one TRY IT YOU'LL LIKE IT!!! If I have missed any who participated I apologize!

Editor.

Mr. Harvey Rookus
3310 Checkmate Drive
Anchorage, Alaska 99508

Dear Harvey,

With all the media coverage of Panama recently, I thought you might be interested in a trip to Panama my wife and I made in 1976 to attend a "Ham" convention in Panama City.

QST had full page ads in two issues in late 1975 and early 1976 inviting hams of the U.S. to attend the annual meeting of FRACAP (Fraternity of Radio Amateurs of Central America and Panama) to be held in April of that year.

We decided to go and made the requested arrangements. We were to fly Panamanian Airlines from Miami directly to Panama City on a specific day.

When we boarded the flight we learned that there were about ten others from the U.S. on the plane. They included Vic Clark, 1st Vice President of ARRL (later President); Jack Williamson and his wife from the Philadelphia area; a man and wife from Binghamton, N.Y., who manufactured radio parts; a couple from New Jersey, and others I have forgotten. Jack Williamson was retired from Barker & Williamson (B&W), manufacturers of coils and traps for many years, and I guess still in business.

When we arrived in Panama City we were met by a delegation of the local radio club and whisked through Immigration and Customs without a stop. Here we met two or three couples from California who had arrived on another plane. After a celebration and group pictures taken, we were bussed to our hotel in town.

The official start of the convention was to take place that evening in the Panamanian Legislative Hall at 7:00 PM. The U.S. delegation went to the hall just before seven and found the place empty. We learned that night that nothing ever starts on time in Latin America! Not even the President of Panama, who was slated to address the first session, had yet shown up. Finally, about 8:30 the proceedings started.

The people of Panama were very friendly and hospitable, as were the people of the other Central American countries, with the exception of Nicaragua, who were rather rude to us from the U.S. There were amateurs from other countries besides those of Central America: Peru, Venezuela, Ecuador, Mexico, Spain and about forty from Medellin, Columbia, who were hosting the convention the following year.

I had an Alaska call-sign (KL7HJS) at that time and many were interested in Alaska.

We had to pay only our airfare, hotel (and what we lost in the casinos) while we were there. Everything else was picked up by the Convention Committee: Food, drinks, bus transportation, entertainment, etc. The Panamanian dictator, General Torijos, contributed \$50,000 to the costs of the convention.

Each evening one of the five Central American countries hosted a banquet and the great entertainment that followed. We were so pleased with the trip we hated to leave!

Happy New Year To All!

Sincerely,
George Sharrock NB4U

George
